

Product code: PP40GPW (White), PP40GPB (Black)

The Gravel Pro is a 40mm deep plastic paving product that is manufactured from virgin polypropylene using an injection moulding technique. The hexagonal shape of the product combines to form a strong cell and ultrasound welding ensures high internal strength, especially in the horizontal direction. A geotextile attached to the underside of the Gravel Pro sheet removes the need to separately lay a geotextile under the plates before filling.

## Key Benefits

- Large surface area available for infill
- Hexagonal shape provides high strength
- Integral geotextile attached to the underside of the Gravel Pro sheet
- Reduces surface water run-off can improve water quality

## Applications

- Footpaths and Cycleways
- Bridleways
- Driveways
- Caravan hardstanding
- Verge reinforcement
- General maintenance access
- Drainage channels
- Sustainable Drainage Systems (SuDS)

## Technical Support

Detailed guidance and assistance is available.

UNIT TYPE	VALUE
<b>PHYSICAL PROPERTIES</b>	
Material	Polypropylene
Unit size	2400 x 1200 x 40mm (2.88m <sup>2</sup> )
Wall thickness	1.5mm
Unit weight	6.7kg per unit
Open area	> 90%
Colour	White or Black (other colours available on request)
Interlock system	-
Tensile connection	-
Accessories	-
Pallet size	50 units (approx. 144m <sup>2</sup> )
